WELCOME TO SNOW PEAK

The Outdoor Lifestyle Creator

Snow Peak's journey began in 1958, when our founder Yamai Yukio, an accomplished mountaineer, created his own line of superior gear out of dissatisfaction with available products. His innovative, pioneer spirit continues to guide our vision. Today, Snow Peak provides a wide range of high-quality outdoor products to discerning consumers worldwide. Now, we're proudly introducing our Luxury Camping line to the United States. Rigorously designed for maximum efficiency and durability, our Luxury Camping products bring a new level of quality to outdoor equipment, helping you experience nature at its best.

OUR MISSION

- We place our trust in the personal vision of each of our employees, and come together as a team unified by a common goal: to be the world's leading manufacturer of exceptional outdoor lifestyle products.
- We embrace our consumer's point of view as our own, and deliver products and services that will inspire us both.
- Our ideas are always on the move. We constantly innovate and build new trends.
- We strive to create a positive impact through everything we do.

Kanpai Bottle

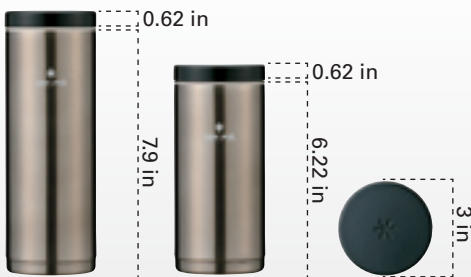

Double Wall Thermal Bottle System

The Kanpai Bottle is an innovative, beautifully designed bottle that sets a new standard for vacuum sealed double walled containers. The 350-ml bottle will perfectly fit a 12-oz beverage can inside, while the 500-ml bottle fits a 16-oz beverage can. The three lid design allows the Kanpai bottle to be more than just a water bottle. One lid is for keeping liquids cold, another to keep them hot, and a third for drinking. Whichever season or adventure you find yourself in, with the Kanpai Bottle you will always be able to enjoy the perfect drink.

Kanpai Bottles

Size

Kanpai 350 TW-070(PW, WR, DS)

Capacity: 13 fl oz (can fit a 12 oz aluminum can)
Weight: 10 oz
Material: 18-8 Stainless Steel

Price: \$69.95

Kanpai 500 TW-071(PW, WR, DS)

Capacity: 18 fl oz (can fit a 16 oz aluminum can)
Weight: 12.5 oz
Material: 18-8 Stainless Steel

Price: \$79.95

Tumbler Lid

Use this lid to drink directly from the bottle. The built-in sliding cover prevents liquids from splashing.

Cooler Lid

The gel inside this lid keeps your liquids cold for up to 6 hours. Toss it in the freezer and enjoy a cold beverage.

Thermal Lid

Use this insulated lid for hot liquids and never worry about spilling.

Neoprene 350 & 500

Weight: 12.5 oz
Material: Neoprene

Price: \$23.95

Price: \$19.95

Hozuki Lantern

Silicone LED Candle Lantern

The sacred *Hozuki* plant was the original design for the ancient Chinese paper lantern. We have adapted this design to capture the beauty and romance of the Chinese paper lantern in the creation of this new Snow Peak product. The new *Hozuki Lantern* combines functionality and beauty like never before in outdoor lighting. Now, you can create the romance of a candle without burning down your tent. The *Hozuki Lantern* features an innovative Candle Mode that allows the LED to respond to sound or wind with a subtle flicker of light; press the on/off button twice to enter candle mode. The three different brightness settings allow you to light up your favorite book or the entire campsite.

Hozuki Lantern

Specifications

Lighting Hours:

High 4 hrs / Mid 10 hrs / Low 40 hrs

Material:

Polycarbonate plastic, ABS resin, acrylic resin, silicone rubber, aluminum

Dimensions:

4 in X 4 in X 9.8 in (when hung)

Brightness:

100 Lumens

Power Source:

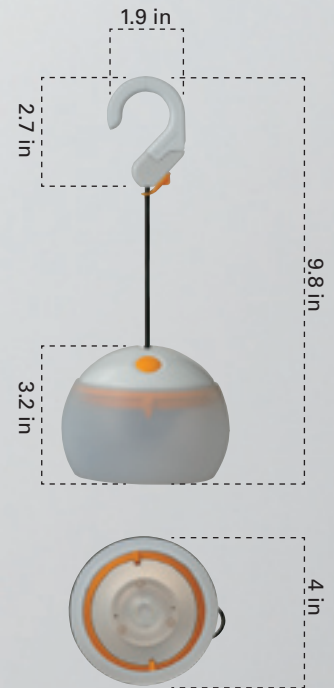

4 X AA alkaline OR AA(NiMH/ZRb rechargeable) suggested batteries (USB mini plug-in)

*Batteries included

*USB plug-in is not included.

(note: USB cord may be used to power LED light in-place of batteries but will not re-charge batteries.)

Size

Price: \$89.95

Handle

The shape of the hook is convenient to carry as well as to hang. Mini USB connector for an alternate power supply.

Stand

Also, use the hook underneath the lantern as a table top stand.

Brightness Settings

With a click of the button the light can easily be dimmed to several different settings including Candle Mode.

Versatility

Stylishly create enough light for a midnight escape or connect to your laptop for a perfect study light.

Hybrid Summit Cookset

Titanium Pot, Silicone Cup & Lid/Hot-pad

Stop melting your jacket sleeves trying to pick up those scorching hot pot-handles. The silicone lid doubles as a pot-holder, withstanding 446°F. The silicone cup can be used as a small cup, or as a sleeve for holding the hot pot. The smooth silicone makes clean-up easy, allowing you to simply fold the cup inside-out and rinse. The entire cookset can easily nest two small fuel canisters or a single fuel canister and stove.

Function

The perfect marriage of materials; titanium and silicone, create a stylish and versatile cookset.

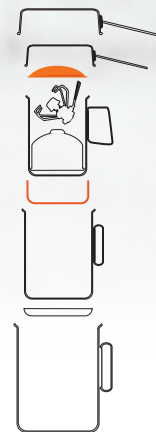

Use the lid as a hot-pad to pour and lift the pot safely without extra clunky pieces to worry about.

Silicone can safely withstand temperatures up to 446°F. Use the cup as a sleeve to hold the warm pot.

Stacking System

- Trek 1400 pan (p.29)
- Trek 900 pan (p.29)
- Silicone lid
- Fuel + GigaPower™ / LiteMax™ stove
- Silicone cup
- Trek 900 pot
- Windscreen (p.16)
- Trek 1400 pot (p.29)

Weight: Cup = 1.2 oz Lid = 1.8 oz
Capacity: Cup = 10 fl oz
Temperature Range: -40°F to 446°F
*microwave, dishwasher and freezer safe

Price: \$44.95

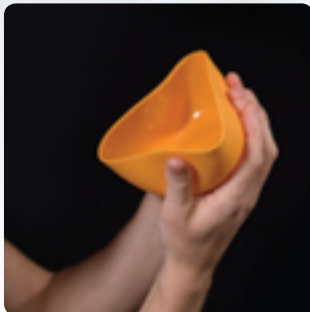

Hybrid Trail Cookset

Titanium Cookset, Silicone Bowl & Titanium Spork

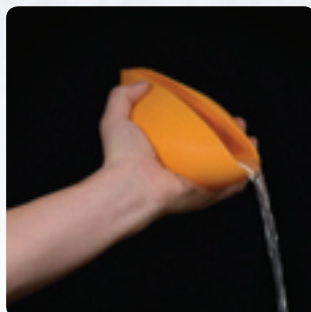

The Snow Peak Hybrid Series now brings you a lightweight versatile 4-piece cookset. The pot and pan provide you with two unique cooking pieces, while the silicone bowl gives you a multi-functional piece from which you can eat or drink. All these pieces are designed to nest together and store a small fuel canister or GigaPower / LiteMax Stove. Weighing in at only 8 oz, it's a perfect cookset for those looking to shed weight without sacrificing functionality.

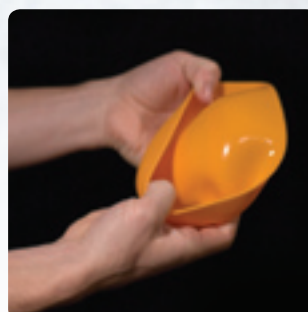

Function

Mold the outer walls to form a drinking bowl.

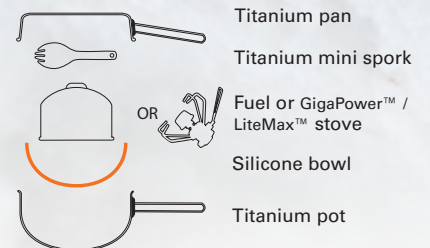

Squeeze two sides together to create a pouring spout.

To clean, simply turn the bowl inside-out and wipe clean with a towel or tongue.

Stacking System

Hybrid Trail Cookset STW-004T

HotLips Titanium Mug

Silicone Lip Protector & Titanium 600 Mug

At Snow Peak we have always enjoyed the convenience of using our single-wall mug directly over a stove to heat or re-heat our coffee. Over time though, we got tired of burning our lips; so we developed HotLips. For the ultimate lightweight set-up, stow a stove and fuel together in the Titanium 600 Mug and never burn your lips again. They are also designed to fit securely on the Trek 900 and Trek 1400 (see page 26).

Stacking System

110 Fuel and a GigaPower™ or LiteMax™ Stove will fit perfectly inside the Mug.

HotLips Titanium Mug MGH-044

Oshibori Hand Towel

Reusable Travel Towel

The Oshibori Hand Towel fits the Snow Peak initiative to keep the great outdoors pristine. Stop wasting paper, and start using this stylish hand towel for your next outdoor trip. Our product includes two individual towels incased in a Poly-carbonate container with antibacterial additives which allow you to store a damp towel without the worry of mildew or other bacteria.

Packing Procedure

GigaPower Plate Burner Li

Stainless Steel Free-standing Single Burner

The GigaPower Plate Burner Li is our newest Liquid Injection stove, a perfect choice for cold weather performance. The slim design allows for easy pack-ability, and this product, like all of our larger camping stoves, integrates into the Iron Grill Table system.

Specifications Price: \$159.95

GS-400

Material:
Stainless Steel, Aluminum, Brass

Size:
14 x 9.8 x 5.5 inches

Weight:
6.2 lbs

Max Output:
12,000 BTU's

Function

The Baja Single Burner Stove is equip with sturdy legs for safe cooking on many different surfaces

Also designed to fit inside the Iron Grill Table for a very sleek and clean look. (Refer to page 39)

The heating unit is safe to place on any table surface. Be sure to keep flammable items away from the flame.

Large BBQ Box

Stainless Steel Adjustable BBQ Box

In response to our Snow Peak consumers we have developed an extra large BBQ box, featuring some of the same great qualities as our original BBQ Box: an adjustable height on the grill net, hearty stainless steel construction, and stand alone or Iron Grill Table integration.

Specifications Price: \$250.00

CK-160

Material:
Stainless Steel, Steel

Size:
19.7 x 14.8 x 4.9 inches

Weight:
21.3 lbs

Grill net height adjustable range:
0 - 2.75 inches

Function

Use stainless steel legs to convert to a stand-alone BBQ grill.

Designed to fit in your Iron Grill Table as a large unit. (Refer to page 38)

Adjust the height of the grill to cook everything from fragile sea food, to a hearty steak.

New Furniture Products

Highest quality materials and ergonomic designs

This elegant collection of new furniture was designed with leisure and natural beauty in-mind. They feature a low profile design which reflects a relaxed feel; simple earth tones that capture the experience of the outdoors; and a sturdy construction to last a lifetime of enjoyment. Enjoy a picnic at the park, a day at the beach, or even a new experience in your own backyard.

Low Beach Chair LV-090

Price: \$79.95

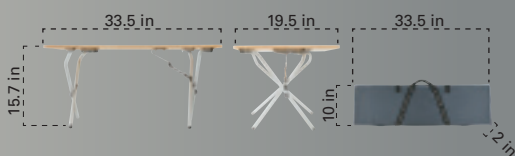

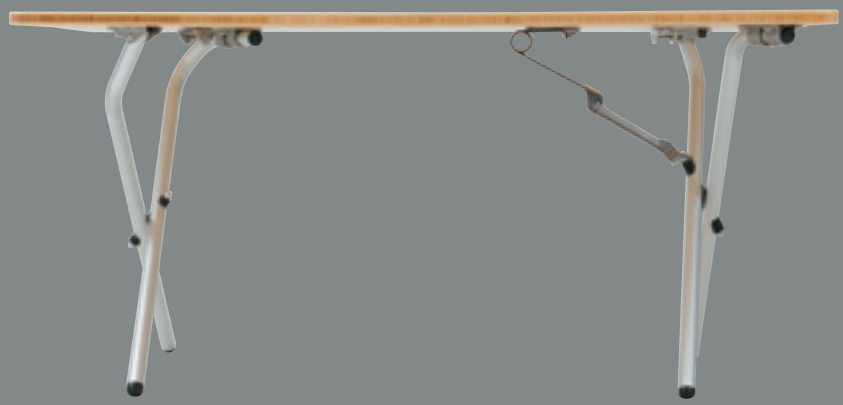

Single Action Low Table LV-090

Material: Bamboo, Aluminum with alumite coating, stainless steel, and polyester bag

Our folding design proves what seems to be impossible to find in an outdoor table: durability and store-ability. The bamboo surface, stainless steel joints, and aluminum legs & frame provide a table durable enough for the outdoors yet elegant enough for home.

Price: \$185.00

Stoves and Lanterns

GigaPower Stove series, Lanterns, and Accessories.

GigaPower Stove

The Original GigaPower

Winner of the coveted Backpacker Editor's choice award in 1999, the GigaPower Stove has been the outdoor industries standard for lightweight stoves, and has yet to be matched in quality, design, function and overall value. One of the key features of this stove is the inverted cup within the stove burner head that simply widens out the flame to better heat even the largest of camping pots and pans. Either choose from an auto ignition or manual ignition stove. An additional option we highly recommend is the windscreen/heat-reflector (see below).

GigaPower Stove, Auto GS-100A

LiteMax Stove

For the ultralight-weight fanatic

Only 1.9 ounces? Yes, it's true, the Snow Peak LiteMax stove is winner of the 2008 Adventure Gear of the year award, one of the lightest stoves you will find, weighing less than most other items in your pack. Yet this light weight stove still packs a punch of 11,200 BTU's, has pot supports designed to naturally block 2/3 of the wind, amazing flame control, and packs into a lightweight polyester carrying case. Truly the stove of choice for the light-weight fanatic!

Tableware / Cookware

Cutlery, Kitchen Tools, Cookware, Cooking Kits & Drinkware

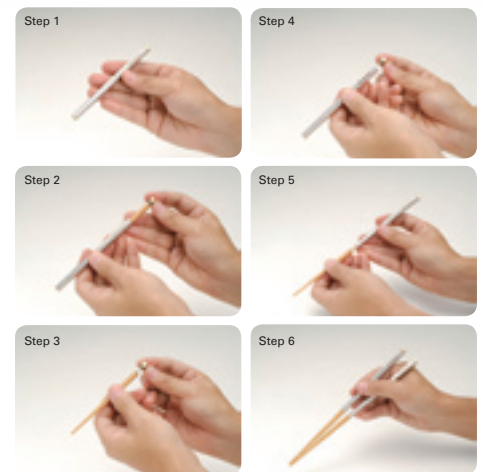

Carry-on Chopsticks

In 1996, a portable, collapsible chopstick was born in Japan on the concept that “we do use disposable cutlery!” The concept was widely accepted and every year since then has only increased in popularity. In 2009, the second generation of “Carry-on Chopsticks” was born, which improved upon the design by adding traditional “his and hers” sizes, squaring off the handle to prevent them from rolling off the table, adding bamboo to the tips, and improving the function of the brass fitting.

Iron Grill Table

The ultimate Outdoor Cooking Experience

The Iron Grill Table, or better translated, "World's Greatest Grill Table" is one of our flagship products. The Iron Grill Table integrates many of our stoves, grills, cutting boards, tables and chairs, featuring them in an elegant, organized custom grilling system. The options are unlimited, with additional heights you may grill standing, sitting, or even closer to the ground; with additional corners and tables, you can extend the grilling system without limits. Use it camping, tailgating, in the backyard, or at an outdoor concert. Its compact easy-to-set-up and dismantle design makes this the ultimate outdoor cooking system.

Explore the many options or create your custom setup online at:

Tents, Tarps & Accessories

Amenity Dome Series

The Amenity Dome tent comes in 2 sizes for families of 3 or 5 (2 adults plus kids). The four pole dome design features an extra large two entrance vestibule which adds extra space for a small family. The color coated poles and pole pockets allow for easy set-up. The UV coating and 1800mm minimum water proof fabric we have used matches specs you see in most mountaineering tents. As with all Snow Peak tents, we sealed all the seams throughout the entire tent and we use only the best material; YKK zippers, Ripstop nylon, and aluminum poles.

Amenity Dome SDE-001 (BG, GY)

Includes: Tent, fly sheet, poles, stakes

Weight: 19.6 lbs

Material: Ripstop nylon, aluminum poles

Price: \$349.59

Amenity Dome S SDE-002 (BG, GY)

Includes: Tent, fly sheet, poles, stakes

Weight: 10.8 lbs

Material: Ripstop nylon, aluminum poles

Price: \$259.95

Land Station Pro Set

The Landstation is designed for versatility with its many different configurations. The 6 panels may be zipped closed; for complete enclosure, zipped open; lifted up by a pole for an awning, or rolled away; for an airy shelter. All fabrics are made from the high-end 150D Polyester Taffeta, with the ceiling grayed out using PU Coating to reduce heat from the sun penetrating the tarp. The Medium Pro Set is ideal for 4 - 6 people, the Large Pro Set, for 8 - 10. Truly the word's finest base camp tarp.

Land Station L Pro Set TP-810S
Includes: Fly sheet, poles, stakes hammer
Weight: 36.7 lbs

Price: \$799.95

Land Station M Pro Set TP-800S
Includes: Fly sheet, poles, stakes hammer
Weight: 33.7 lbs

Price: \$699.95

See online for details, materials, specs, accessories and further information

Land Lock

The Land Lock is a tent/tarp hybrid designed and built to be a 3 season long-term shelter. Featuring a 5 pole framed structure with an internal hanging tent which sleeps a family of 5, a living room for relaxing and an awning for the kitchen. This ultimate all-in-one shelter is built of high quality materials allowing you to enjoy years of camping memories.

Land Lock TP-670S

Includes: Fly Sheet, 4 person inner tent, Duralumin pegs, ropes, seem sealer, carry case, Poles
Weight: 48.5 lbs

Price: \$1,299.95

Ponta Tarp

This traditional tarp is an easy and inexpensive solution for the solo or two person adventurer looking for a lightweight warm weather shelter solution. The two poles are sold separately.

Price: 69.95

Tarp Poles 125 TP-161

Price: 39.95

Penta Tarp

The pentagonal shaped tarp is designed for the canoe/kayak enthusiast, and perfect for both over-night solo camping or day use sun/wind/rain shelter. The tarp is set-up using only a single pole, which can be either a walking stick, kayak or canoe paddle, or an aluminum pole (shown below). Another unique accessory includes an inner tent that easily clips into the single pole, adding water-proof floor and only one side wall.

Camping Stakes & Hammers

Solid Stakes 30 R-103

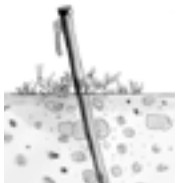

(Available in other sizes online)

Price: \$4.00

Material:
S55C Steel
Black electrodeposition coating.

Size:
Length= 15 3/4 inches
Head Ø = 15 mm
Shaft Ø = 10 mm

Weight:
6 oz

Our Solid Stakes are designed with the roughest terrain in mind. The material and design is made to bust through concrete and the toughest terrains.

When the head bites into the ground, the hook also sticks into the ground to prevent both revolution and rope slippage.

The round hole is convenient for pulling the stake out of the ground. It is designed to catch on the hook of the Peg Hammer Pro.

Solid Stakes 40 R-104

(Available in other sizes online)

Price: \$6.50

Material:
S55C Steel
Black electrodeposition coating.

Size:
Length= 11 7/8 inches
Head Ø = 15 mm
Shaft Ø = 10 mm

Weight:
12 oz
